

Grizon Russell B. Sacay

grizonrussel.sacay@gmail.com | +63 906 792 7476 | Iponan, Cagayan de Oro City

Summary

UI/UX Designer specialising in web and mobile applications, with strong expertise in Figma, design systems, and user-centred problem solving. Experienced in collaborating with international company, leading design decisions, and delivering developer-ready designs for real-world platforms and enterprise systems.

Experience

Technical Website Support / Figma UI/UX – Rheingeist Werbeagentur, Germany
Aug 2025 – Oct 2025

I focused on re-designing company website projects to enhance usability and visual appeal. I designed intuitive layouts and user flows in Figma, optimizing components for consistency, and ensured responsive designs that aligned with brand identity to provide seamless user experiences. I also collaborated closely with international teams to deliver modern and effective web solutions.

UI/UX Web & System Designer (Internship) – City Management Information Systems and Innovation Department, Philippines
Dec 2025 – Apr 2026

I focused on designing system interfaces and redesigning existing government websites to improve usability and user experience. Developed wireframes, user flows, and interactive prototypes in Figma, ensuring intuitive and user-centered designs. Contributed to system analysis and design by supporting workflows, data structure planning, and role-based features for a web-based information system. Collaborated within an Agile environment to deliver functional and visually consistent solutions aligned with organizational needs

Projects

IMPLEMENTATION OF APPLICANT TRACKING SYSTEM WITH POINTS SYSTEM FOR DEL MONTE PHILIPPINES, INC.

Website UI Designer – Del Monte, Cagayan de Oro, (*Dec 2024 – Nov 2025*)

As part of our capstone project, I contributed as a UI Designer using Figma. I was responsible for designing a clean, user-friendly interface for the Applicant Tracking System, ensuring smooth navigation and intuitive workflows. The system featured a built-in points system to evaluate and rank applicants efficiently, streamlining the recruitment process for Del Monte Philippines, Inc. My role focused on translating complex requirements into a visually clear and practical design that enhanced both usability and functionality.

HAWAK-KAMAY SCHOLARSHIP MANAGEMENT SYSTEM

System UI/UX Designer – PHINMA Cagayan de Oro College, (Oct 2023 – Jun 2024)

I designed the System of the Hawak-Kamay Scholarship Management System as a UI/UX designer using Figma. This capstone project (2023) streamlined scholarship application and management processes, providing students and administrators with an intuitive, user-friendly platform that emphasized accessibility, efficiency, and a modern visual design.
